

MANUAL DE INSTALACIÓN SOFTWARE Biomass_Analyzer

Julian Santiago Mahecha Ramirez
William Alberto Sanchez Lucuara

1. First, you should open the Biomass_analyzer-main folder.
2. Then, open the folder that says instaladores.
3. And finally, inside that folder, you will find an installer for Mac and one for Windows.
4. Run the installer.

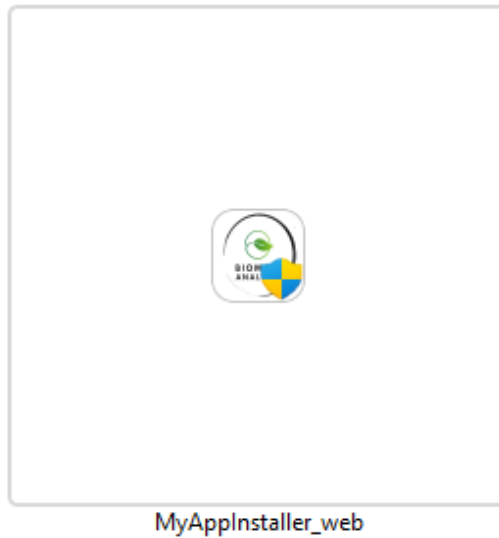

Figure 1. Biomass_Analyzer Installer

- 4.1. If a Windows Defender SmartScreen message appears when opening the file, as illustrated in Figure 2, click on the 'More info' link.

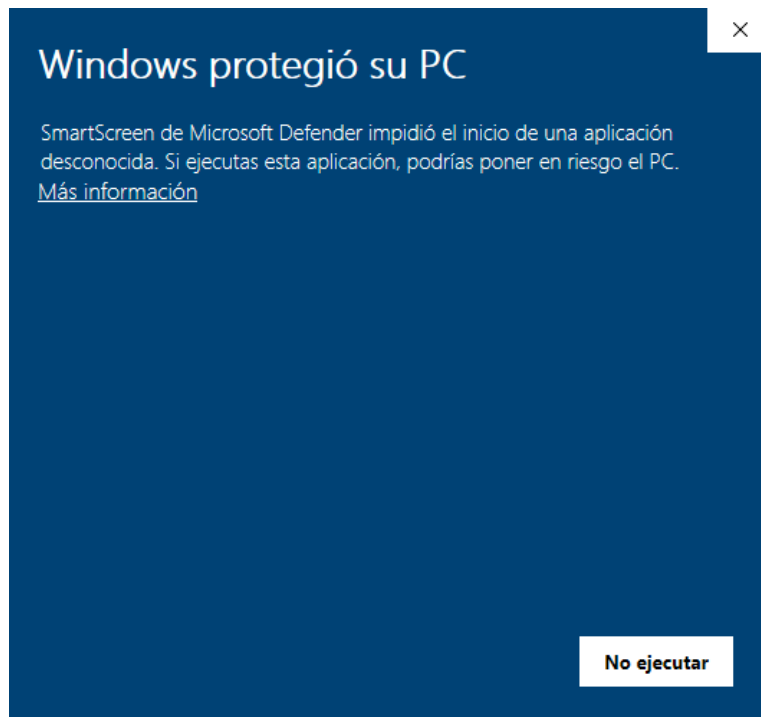

Figure 2. Windows Defender SmartScreen Message

4.2. When you click on the 'More info' link, a dialog box will appear as shown in Figure 3. Select the option 'Run anyway'.

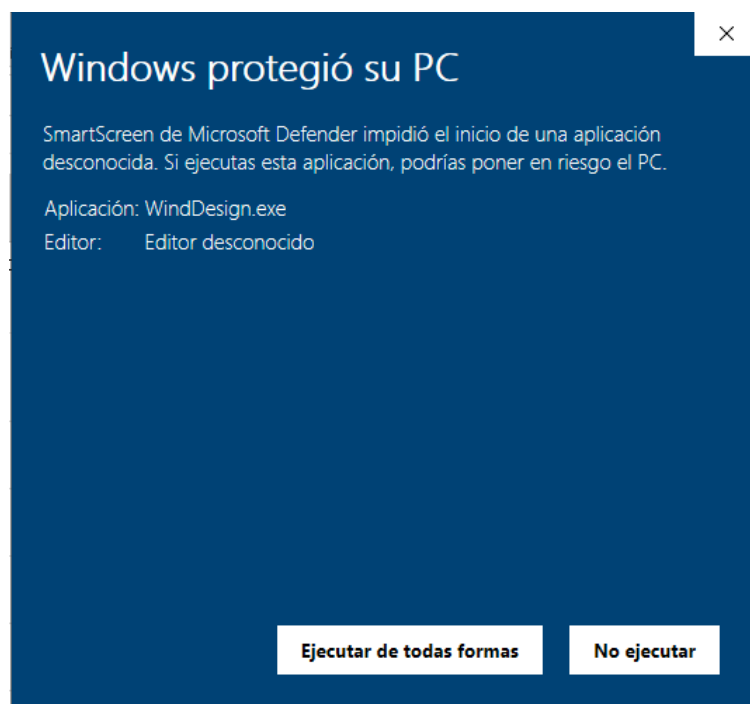

Figure 3. Run Software Dialog

5. Once executed and the installation start screen appears, you will see the same image as in Figure 4. Click on the 'Next' button.

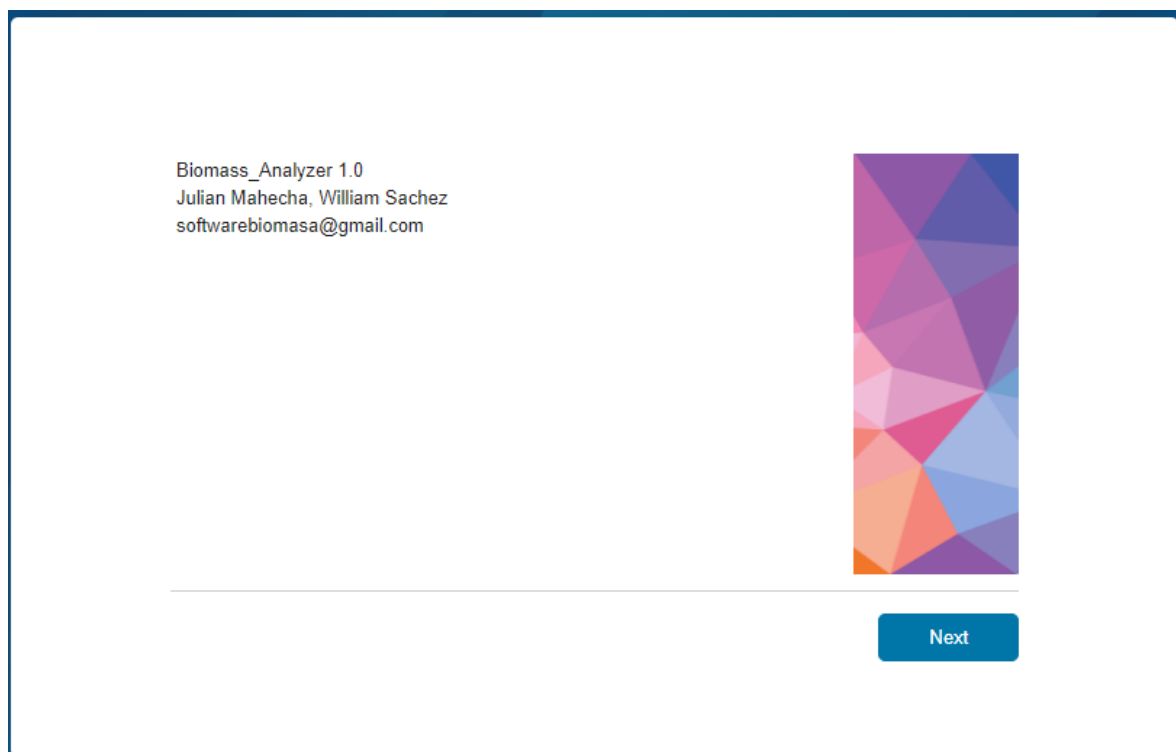

Figure 4. Software Design Credits

6. The program compiler installation window is displayed, as shown in Figure 6. Click on the 'Next' button.

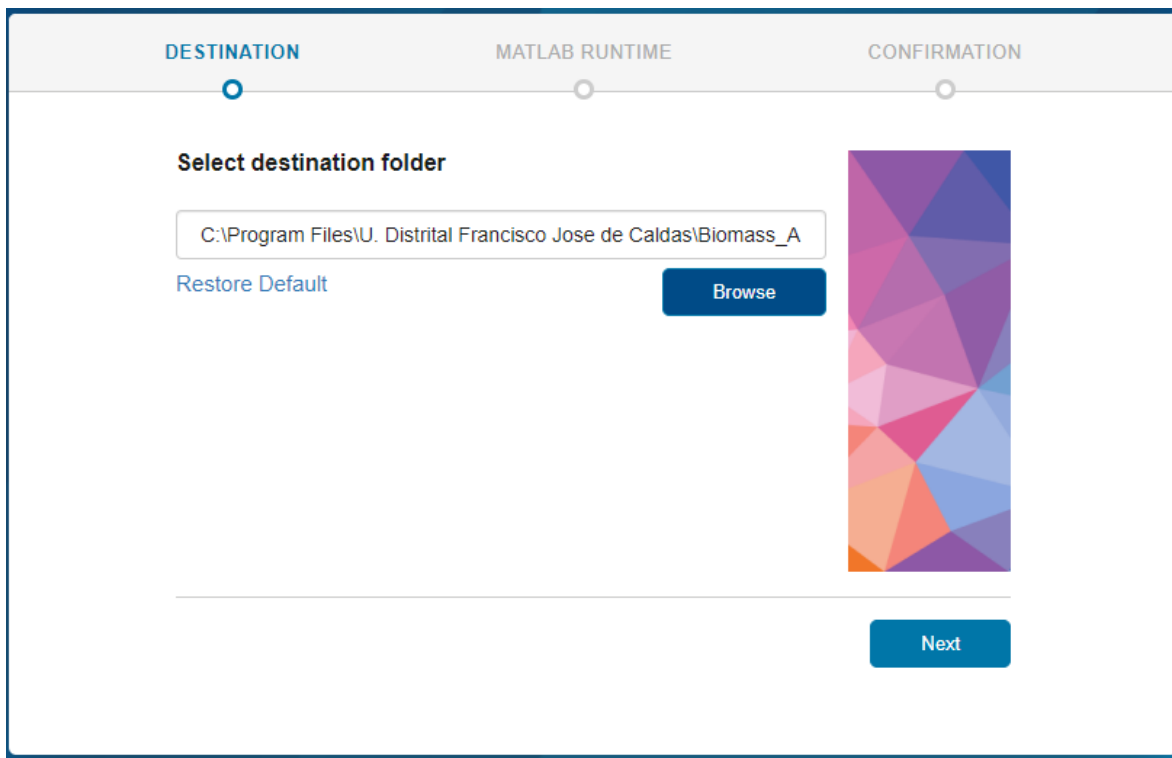

Figure 5. Required Software

7. The program's terms and services will appear, as shown in Figure 6. Click on the 'Yes' button, and then the 'Next' button.

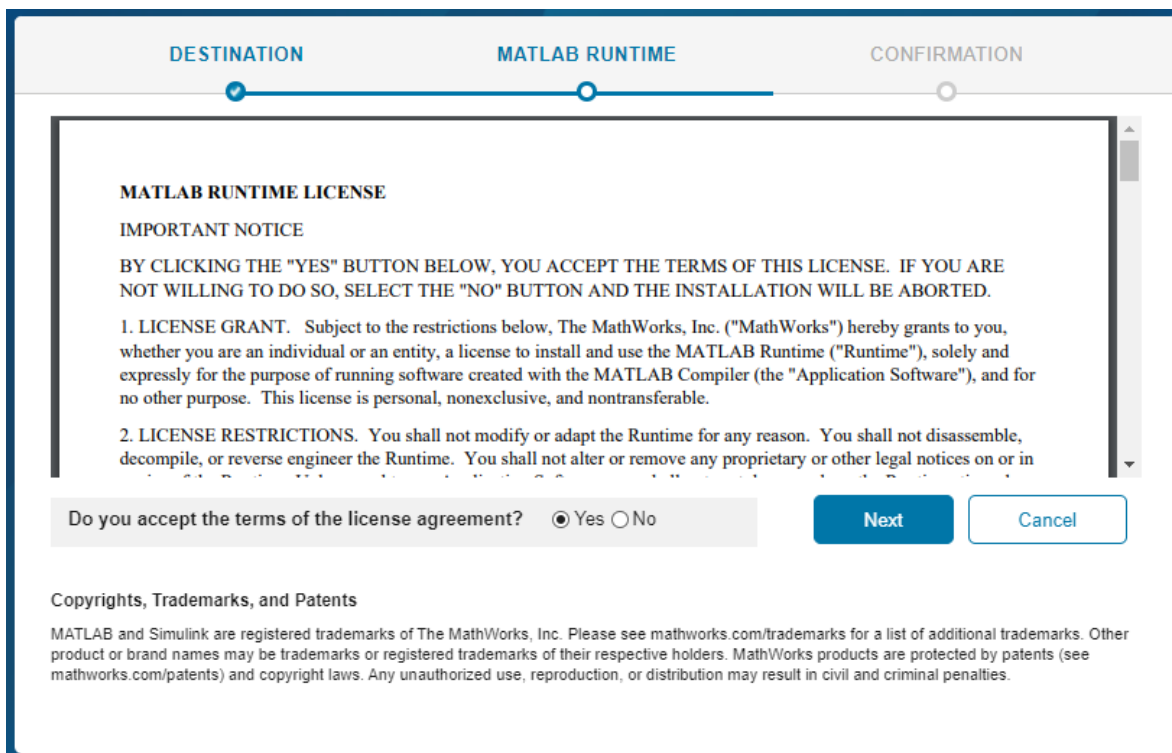

Figure 6. Acceptance of Terms and Conditions

8. It will display the file specifications and their size, as you can see in Figure 7. Click on the 'Begin Install' button.

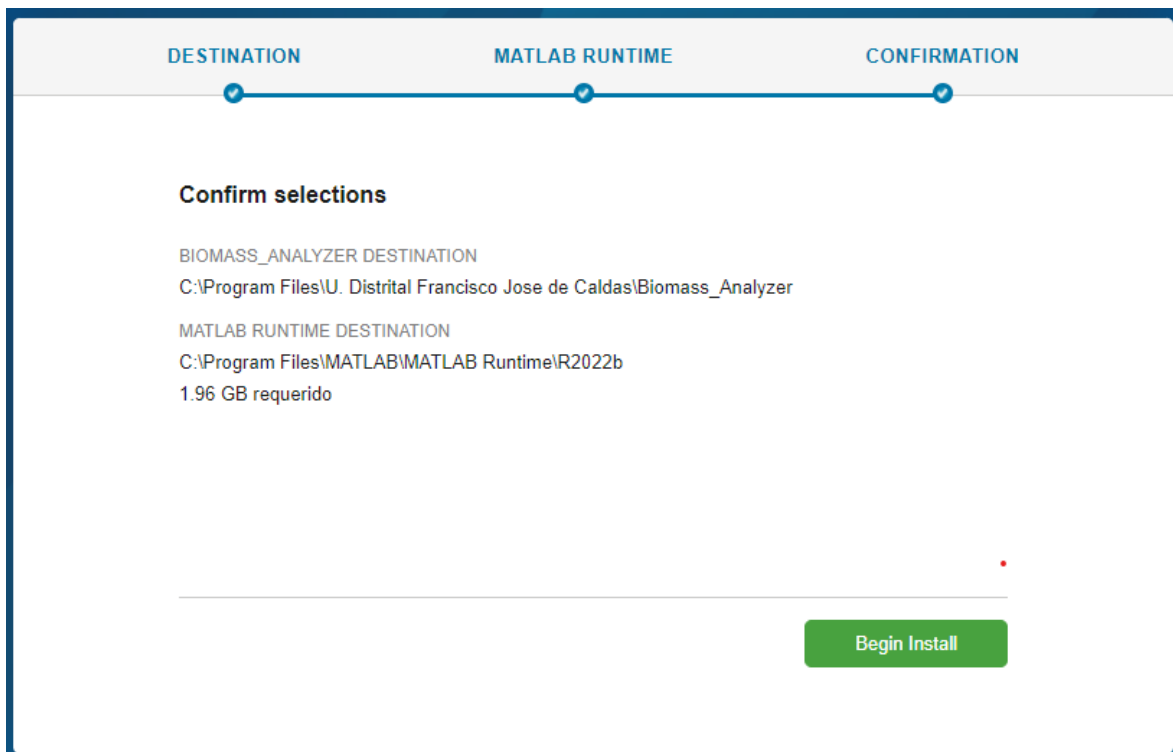

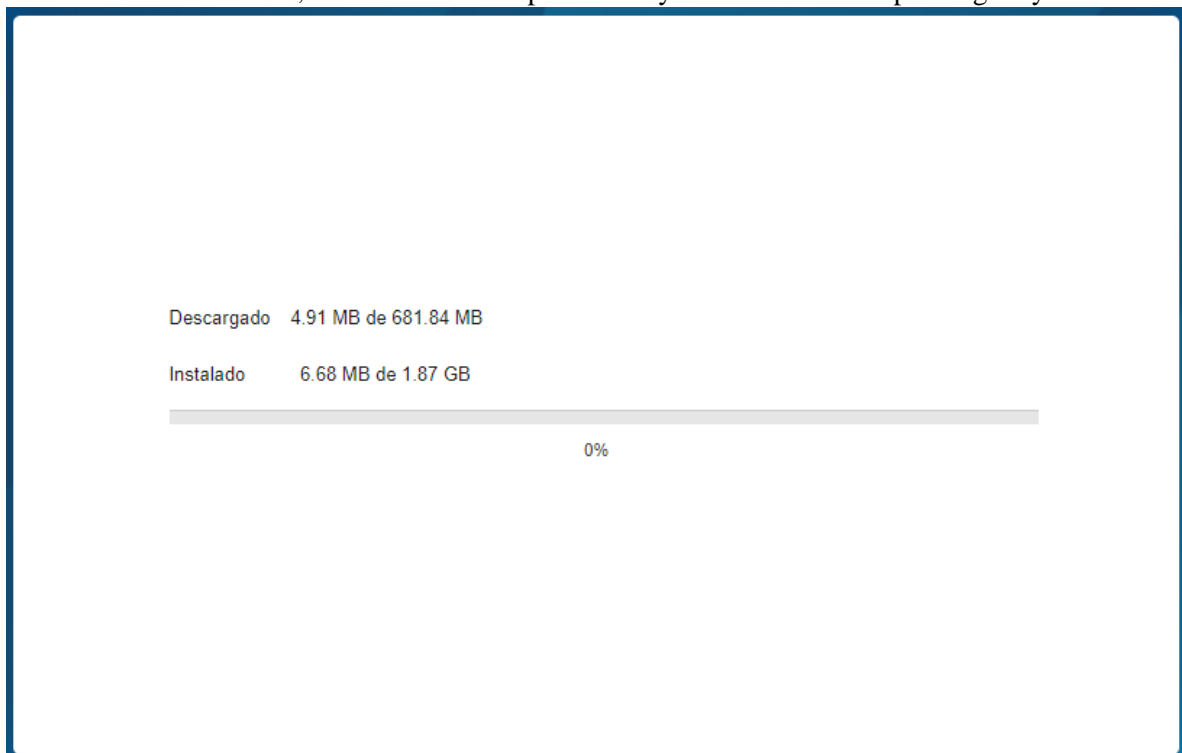

Figure 7. File Specifications and Download Size

9. The program will download the necessary files for its execution and then install them, as shown in Figure 8. Please wait for the files to download, and the download process may take some time depending on your connection."

"Figure 8. Download and Installation of the Software"

10. The file will have been installed; you only need to click the 'Close' button to close the window."

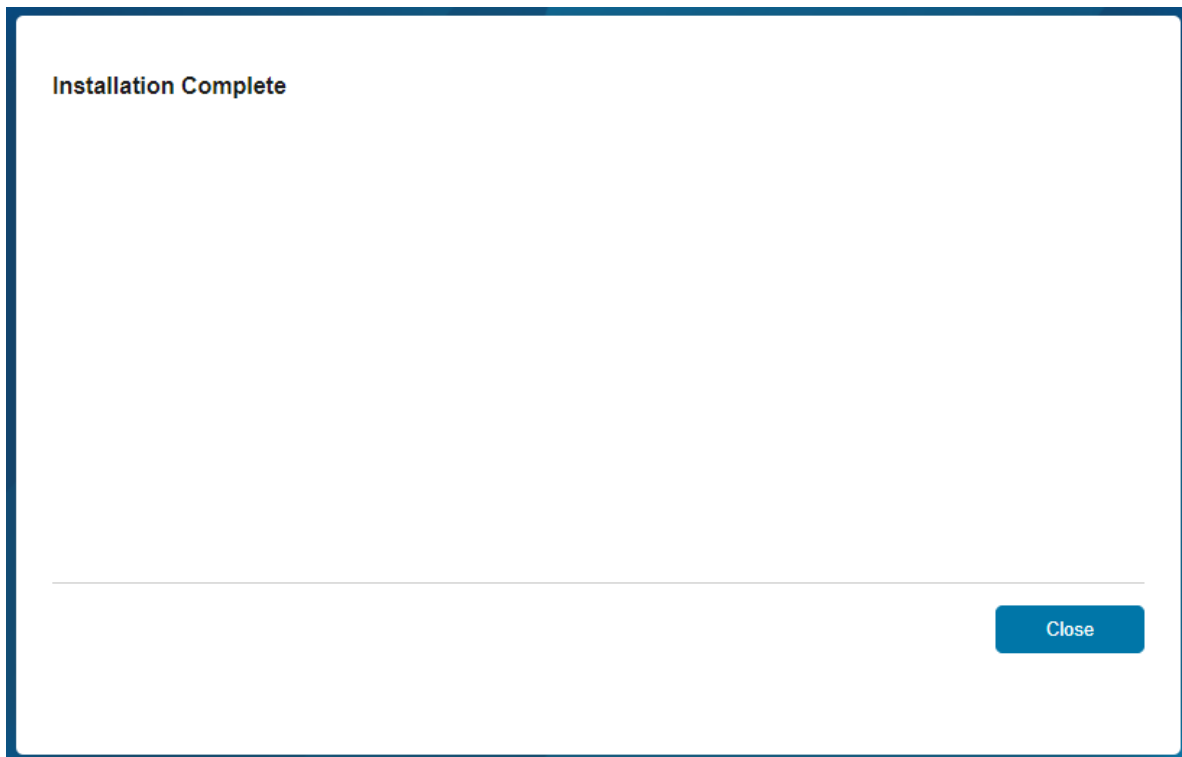

Figure 9. Download and Installation of the Software

11. Open the program.
